

PRASANT'S MESSAGE

Dear Team,

June has been a month of progress and recognition for LEPRO Society. We celebrated World Yoga Day across all project locations, promoting wellness and unity. We're pleased to share that the Azim Premji Foundation has approved our project in Bastar, Chhattisgarh, and we've received our first CSR grant from Infosys—a milestone in our journey.

We held review and planning meetings for the Mankind-supported DISPELL project in Vijayawada and Bhubaneswar, and conducted a Pediatric TB project visit in Chhattisgarh. I also had the opportunity to participate in the Goodbye Leprosy Trust (GBLT) Trustees Meeting, contributing to future strategic directions.

In Odisha, we're grateful for the Koraput Collector's support in renovating the Koraput Care Centre. Finally, I'm proud to announce that our CSR project Jagruti has been selected for the **CSR TIMES AWARD 2025**, to be presented at the 12th National CSR Summit under the theme "Role of CSR in Mission Viksit Bharat by 2047." This recognition is a testament to your dedication and the impact we're making together.

Thank you for your continued commitment.

IMPACT STORY

Desua Patra, a 10th pass resident of Gidighaty village, Bahalda Block, was diagnosed with Multibacillary (MB) leprosy and completed MDT treatment in 2021. Though declared Released from Treatment (RFT), a hand deformity continued to affect his daily life due to lack of post-treatment care.

Living in a Below Poverty Line (BPL) household with just his father and young son, Desua is the sole breadwinner, earning around ₹50,000 annually through daily labor. His worsening deformity impacted both his ability to work and his self-esteem.

During LEPRO Society's field visit, he was identified for support. The team provided self-care training, MCR footwear, and regular follow-up. He was referred for Reconstructive Surgery (RCS), which was successfully completed. Today, Desua has regained partial hand function, resumed his work, and feels confident and self-reliant again. He now encourages others in the village to seek timely treatment and not hide their symptoms.

Beneficiary's Words:

"I am grateful to LEPRO Society for helping me regain my ability and confidence."

LEPRA Society CEO Mr. Prasant Naik, visited Kachiguda Grain Bank, Now self-sustained with over 3 lakh kg. The village has reported no cases of Leprosy, TB, or malnutrition in 14 years.

Meet Our Staff

How did you join LEPRA Society, and what is your role?

I joined LEPRA Society through the DEVNET JobsIndia portal. I work on developing reporting formats, conducting field visits, collecting data, and supporting the Project Manager in both field and office activities.

How do you engage with local communities?

I connect with communities through regular field visits, sharing key information with the support of our team to raise awareness and promote understanding at the grassroots level.

What challenges do you face, and how do you address them?

Linking affected individuals to social welfare schemes is a major challenge. I address this by advocating with government officials. One success was helping a beneficiary receive ₹93,000 under the Bihar Shatabdi Kusht Kalyan Yojna (BSKKY).

A memory you cherish at LEPRA Society?

Despite having no prior experience in health projects, LEPRA Society trusted me with this role. It's been a rewarding journey, and I'm grateful for the opportunity and support from the organization.

Sanjay Kumar Bhagat
MIS Executive
Jagruti Project Samastipur

Thank you to LEPRA Society team for your unending support
